A Note for Parents & Teachers

How to use this book

A picture-first book, and a move-it book

- Every question uses **pictures**. Read short questions aloud at first, then let your child lead.
- After each lesson, **do the moves for real**: run, jump, balance, throw and catch, wash hands the right way.
- Aim for about **60 minutes of active play a day**. Count it together on the Unit 3 sheets.

The weekly rhythm (about 12 weeks, 5 days a week, 10–15 minutes)

- **Lesson day:** look at the picture page, try the two questions, then move together.
- **Days 1–4:** two practice sheets a day (Sheet A, then Sheet B with new pictures).
- **Day 5:** mixed review, then a **Draw it!** box.
- **Goal:** 90% or better. Check with the answer key and fix mistakes together.
- Take the Check-Up after Unit 5 and the Final Test at the end.

Safety first

- Do active games in a safe space with an adult nearby. Match activities to your child's health and abilities.
- Talk about safe choices outdoors: helmets, life jackets, sun protection and crossing streets.

About the BC curriculum: The units follow the Grade 2 Physical and Health Education ideas I could confirm for BC: daily moderate-to-vigorous activity and its benefits, learning fundamental movement skills, monitoring exertion, safety, fair play and leadership, healthy eating choices, healthy personal practices that protect ourselves and others, and the link between physical, emotional and mental health. I could not open the official page for exact wording, so please check it against your own curriculum. Kumon's own pages do not match its levels to school grades. Levels rise from **Starter** (Units 1–3) to **Building** (4–6), **Stretch** (7–9) and **Challenge** (10).
