A Note for Parents & Teachers

How to use this book

A balanced mix, and a move-it book

- Each sheet mixes **pictures** with **true/false, fill-in-the-blank (word bank), matching, short reading and writing**. Read short passages together at first, then let your child lead.
- After each lesson, **do the moves for real**: run, jump, balance, throw and catch, wash hands the right way.
- Aim for **60 to 90 minutes of moderate to vigorous activity a day**. Count it together on the Unit 3 sheets.
- Ask your school or your local First Nations or Indigenous community about **traditional Aboriginal games** and try some together.

The weekly rhythm (about 12 weeks, 5 days a week, 10–15 minutes)

- **Lesson day:** look at the picture page, try the two questions, then move together.
- **Days 1–4:** two practice sheets a day (Sheet A, then Sheet B with new pictures).
- **Day 5:** mixed review, then a **Draw it!** box.
- **Goal:** 90% or better. Check with the answer key and fix mistakes together.
- Take the Check-Up after Unit 5 and the Final Test at the end.

Safety first

- Do active games in a safe space with an adult nearby. Match activities to your child's health and abilities.
- Talk about safe choices outdoors: helmets, life jackets, sun protection and crossing streets.

Follows the BC Grade 2 PHE curriculum. The Big Ideas are: (1) daily moderate-to-vigorous activity benefits all aspects of our well-being; (2) learning to move in different activities builds physical literacy; (3) healthy personal practices and safety strategies protect ourselves and others; (4) good communication and managing emotions help healthy relationships; (5) our physical, emotional and mental health are interconnected. Content covered: fundamental movement skills (on the spot, travelling, with objects), types of activity (individual and dual, rhythmic, games), monitoring exertion (1–5 scale), effects of activity on the body, healthy eating, illness prevention, support and health information, safety strategies, medicine and poison safety, emotions and self-identity. Check your own curriculum for exact wording. Kumon's own pages do not match its levels to school grades. Levels rise from **Starter** (Units 1–3) to **Building** (4–6), **Stretch** (7–9) and **Challenge** (10).
