Follows the BC Grade 2 Social Studies curriculum. Not affiliated with Kumon.

A Note for Parents & Teachers

How to use this book

A balanced mix

- Each sheet mixes **pictures** with **true/false, fill-in-the-blank (word bank), matching, short reading and writing**.
- Read short passages together at first, then let your child read and write alone.
- Talk about the answers. Social studies is about ideas, so there is often more than one good answer in the writing parts.

The weekly rhythm (about 12 weeks, 5 days a week, 10–15 minutes)

- **Lesson day:** look and learn, read the three key ideas, try the two questions.
- **Days 1–4:** two practice sheets a day (Sheet A, then Sheet B).
- **Day 5:** mixed review, then a **Draw it!** box and a sentence about your picture.
- **Goal:** 90% or better. Check with the answer key and fix mistakes together.
- Take the Check-Up after Unit 5 and the Final Test at the end.

Make it real

- Walk through your neighbourhood and spot places, helpers and leaders. Look at a real map.
- Visit a library, a town hall or a food bank. Ask an Elder or a community leader to share stories or knowledge.
- Talk about how your family celebrates and what makes your community special.

Follows the BC Grade 2 Social Studies curriculum. Big Ideas: (1) local actions have global consequences, and global actions have local consequences; (2) Canada is made up of many diverse regions and communities; (3) individuals have rights and responsibilities as global citizens. Content covered: communities and cultures in Canada and around the world (including a First Peoples community), how needs and wants are met, people and the environment, features of the environment around the world, rights and responsibilities, and the roles of regional governments. Skills practised: maps with cardinal directions, symbols and legends; sequencing and change; fact vs opinion; and choosing responses to a problem. Check your own curriculum for exact wording. Kumon's own pages do not match its levels to school grades. Levels rise from **Starter** (Units 1–3) to **Building** (4–6), **Stretch** (7–9) and **Challenge** (10).
